

20 September 1971

NOTE FOR: Mr. Wattles

I promised to send up for your perusal the copies of the building book which I have delivered to Red along with the memo which is enclosed.

Also, you asked for a note with regard to the Agency Art Show, a subject I had raised in our last telephone conversation. That note is also attached and I would be grateful for any help that you find feasible. Obviously I am not asking a big production be made of it.

 STATINTL
